Stay Competitive!

You are probably well aware that early childhood programs throughout the United States are now offering Spanish as a regular part of their curriculum. Spanish immersion elementary schools have waiting lists and are opening and growing at record rates across the country. Parents are searching for help to prepare their children with a second language during the preschool years. Now your childcare center or preschool can help them!

Teach & Learn Spanish™ is a remarkable new curriculum that will empower your preschool or childcare center to become and remain competitive with the thousands of centers that already offer Spanish. I would love to set up a meeting with you and explain how this can effectively, affordably and quickly be achieved at your location(s).

Teach & Learn Spanish™ is a fun, creative and user-friendly Spanish curriculum for ages 3-8. **Teach & Learn Spanish™** is designed for teachers who don't know any Spanish at all, for teachers who are fluent in Spanish and all levels in between! **Teach & Learn Spanish™** makes it easy for any teacher to provide their students with a Spanish class they will love!

Parents will be delighted when you tell them they have the option to review the same vocabulary and songs at home that they learn at school, even if they don't know any Spanish! Free interactive parents newsletters are a part of **Teach & Learn Spanish™**.

With **Teach & Learn Spanish™** you don't have to hire a Spanish teacher or vendor if you don't want to. It is designed so that classroom teachers can teach Spanish even if they have never studied Spanish before! Read through this brochure and you will learn how this is easily achieved! In fact classroom teachers often volunteer to be "The Spanish Teacher" because it is so much fun and they get to learn or brush up on Spanish too! However, if you decide to hire a Spanish teacher, or if you already have one on staff, this is an ideal curriculum for them to use! Everything is provided to them which eliminates preparation time!

Excellent Reviews!

Teach and Learn Spanish has been so easy to use for all of our Toddler and Pre-school/PreK teachers. Most of our teachers had very little Spanish background/knowledge and have enjoyed the user friendly curriculum and CD's. Theresa has been an amazing help to our staff with on-site training workshops and being available to answer our many questions. Our students look forward to Spanish class each week!

Teach & Learn Spanish has so many tools and techniques to get children excited about Spanish every week. My favorite part about how it's designed is that it allows me as a teacher to tailor my lessons to each group (based on ages and interests) as well as choose what to teach based on what is relevant to each class.

My girls LOVE learning and I love teaching Spanish with **Teach & Learn Spanish!!!** We listen to the CD in the car a lot, and they are so proud of counting to 12 :)! The activities are great, and it is so nice everything can be adapted for such a wide age range! It is also nice because I can reuse the material each year and focus on different aspects as my children grow:)! Thank you!

I have been absolutely impressed with Theresa and the **Teach & Learn Spanish** program. My daughter is coming home every week with exciting new things she is learning. She often counts in Spanish with out even thinking about it and she loves to tell me colors while we are out and about. Also, Theresa provides the most wonderful on-line support tools so I can participate in my daughters' learning.

My staff just had a Spanish training with Theresa Gunderson, the creator and author of **Teach & Learn Spanish** and it was great! We are planning to start the monthly Spanish lessons with our preschool classrooms and might expand into our toddler classrooms in the future. Theresa taught my staff about the curriculum and she came prepared with all kinds of props and visuals. I am very happy that we are implementing **Teach & Learn Spanish** curriculum and having Theresa coming out to train us was very helpful! Thanks again!!

What is Teach & Learn Spanish™?

Teach & Learn Spanish™

is a remarkable new curriculum that empowers teachers & parents with any level of Spanish (even beginners) to become instant Spanish teachers for children ages 3 to 8!

**Designed
especially for:**

- **Childcare Centers**
- **Homeschool Families**
- **Spanish Immersion Families**
- **Elementary Schools**
- **Families with Kids**
- **Tutors**

Why is it Unique?

You can have any level of Spanish and teach it!

Teach & Learn Spanish™ breaks the barrier of having to know or be fluent in Spanish in order to teach it. It used to be that childcare centers and elementary schools had to hire a Spanish teacher and moms and dads had to find a Spanish tutor. Not anymore! **Teach & Learn Spanish™** makes it possible for classroom teachers to teach Spanish! Furthermore, they benefit along with the students because they get to learn or brush up on Spanish while they teach it! If you already have a Spanish teacher on staff, this is the ideal curriculum for them!

Teach & Learn Spanish™
is revolutionizing how adults and
children learn Spanish...together!

What is "Spanish by the Month"?

Teach & Learn Spanish™ is launching its first curriculum line in 2017. It's called **"Spanish by the Month™."** It includes 12 lesson plan books (averaging 80 pages in length) and accompanying CDs, one for each month of the year. The CDs help you pronounce Spanish correctly and they teach many of the activities for you. They capture your student's attention with silly sound effects, fun songs, chants, exercises, stories and more!

Each month highlights a holiday or celebration, (which kids love) and practical vocabulary is taught throughout. Beautiful picture and word flashcards and worksheets make up the second half of each lesson plan book. Captivating activities make the lessons incredibly fun to teach!

You can begin with the current month's lesson and continue in order through the year-long curriculum.
